Dear John:

Did you get a Great Deal - or just an Okay Deal - or were you ROBBED?

My staff has analyzed thousands of transactions where people—just like you—sold their future structured settlement payments and did not get all the money they should have.

We have completed hundreds of transactions with people receiving more money than they expected and many receiving amounts in excess of **\$10,000** from their prior transaction(s). Some clients even chose to take a portion of their re-fund in a **CASH ADVANCE** up to **\$2,000**, if applicable.

OUR MOST RECENT TESTIMONIAL:

"I have sold some of my payments in the past, but this time I went through Client First and had the best experience so far. I would recommend Client First to anyone who wants to sell their payments for a lump sum of cash. And now that I have my money, I am making repairs that my home needed and paying off my daughter's college bill." – Roy P. from Pennsylvania

Many of our clients say that if they hadn't called Client First to see if they got a good deal on their prior transaction, they would never have known that they were due a re-fund. Not only are they relieved, but oftentimes they admit to feeling foolish at not having looked into it sooner.

☑ We keep our costs low, so we pass the savings to you. It is more important to get you the money you deserve and we accomplish that by providing this service to you in the most cost effective way. We can show you how this means you can sell less of your future payments and still get more money today to meet your needs. Ask about a **FREE CASH QUOTE - TODAY!!**

☑ Client First purchases BOTH guaranteed and life contingent payment streams.
