**GLOSSARY**

FORGE is a national consulting firm that is challenging the status quo in the settlement industry. Our plaintiff-focused approach and full-market access ensures that our clients receive the best possible settlement, individually structured to meet their particular financial needs. For too long, plaintiffs have been unaware of the wealth of consulting options available to them, accepting settlements that are ill-suited for their life situations. We aim to solve this problem by providing plaintiffs and their trial lawyers with the full power of structure.

By designing a customized financial solution that includes the right combination of trust products, managed accounts and structures, FORGE assures your client of liquidity, lifelong security and valuable tax advantages. We are independent brokers who seek out and require competition for the best pricing among life insurance, trust and money management corporations. FORGE also provides attorneys with fee structuring options, allowing them to take advantage of the unique opportunity to defer taxation on earned fees.

We are determined to make a difference in the fight for plaintiffs' rights, and are staunch partners with attorneys who wish to do the right thing for their clients. Our team looks forward to working in your best interest and that of your clients, helping them to make the best choice for their futures. Don't just settle. Forge a winning structure. Call FORGE Consulting the moment you get the case.

Sincerely,

Your partners in advocacy
