**Re: Protest of Symetra Business Practices**

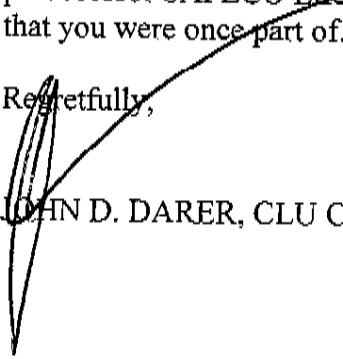

Dear Ms. McSheridan,

Enclosed please find the Symetra Life rate disk recently sent to us. It won't be needed. Please remove and any and all appointments concerning the undersigned and place the undersigned on the "do not call" and "do not mail" list.

These steps are being taken in direct protest of the manner of your company's unconscionable business practice of aggressively soliciting tort victims (whose structured settlements were placed in your company's trust) to sell their structured settlement payment rights. This practice serves to undermine the confidence of the trial lawyer community in our product and whatever is left of your company's dwindling credibility with our industry.

It is a pity to see the course that your company has chosen. For many years its predecessor SAFECO Life was a huge and respected player in our business, something that you were once part of.

Respectfully,

  
JOHN D. DARER, CLU ChFC CSSC
