Forge is honored to continue our partnership with The Rhode Island Trial Lawyer Association. This letter is a call to action for any practicing attorney who thinks they have to do anything a defense-structured settlement professional tells them. FORGE Consulting acts exclusively as a plaintiff's expert, and if doing a structure makes sense for your client, having a professional agency represent them makes tremendous, legal sense.

Plaintiffs have a right to representation. We're fully aware of the insurance industry's affect to strong-arm plaintiffs to structure the settlement to the botterment of the defendant insurer. FORGE, as the only plaintiff exclusive company in the country, puts the power of this Congressional intent and legislation into the hand of every Rhode Island plaintiff period!

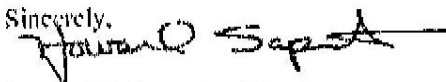

Here are a few of the benefits of working with FORGE on every settlement:

- Forge has a legal insurance duty to the plaintiff; the defendant's agent does not. You will legally release the defendant's agent upon completion of the case.
- Forge guarantees a more competitive structure, every time, and will be there professionally should something ever go wrong.
- Forge provides an affidavit on minors' cases, which eliminates the guesswork for your judicial officers. Our affidavit is part of the Judicial Institute's materials on wrongful death and infant compromises.

Our team integrates the structured settlement concept into your law firm's process. You'll have a dedicated team on every case. It's ALL about unbiased planning - we have expertise in Special Needs Trusts, wealth management, Medicare and Medicaid preservation and how to properly integrate structured settlements into your client's overall plan. If you've ever hesitated engaging a plaintiff's expert, or thought that working with the guy at the mediation is easier and faster, think again.

We will stand for your client's rights under any circumstance. So whether it's a minor's case, a catastrophic injury, or assistance with managing clients' expectations, please call us. We can articulate in five minutes how best we can be of assistance, free of charge. Once again thank you for your continued support and I personally look forward to the opportunity to work with you and your firm.

Sincerely,

Howard T. Superston III
