Structured Settlements

[About Structured Settlements](#) || [Consumer Protection](#)

What is a Structured Settlement?

A structured settlement is an agreement stemming from a personal injury claim that involves an insurance company making payments to an individual over a period of time.

Selling Structured Settlement payments for cash now

A structured settlement is a financial tool created to meet the needs of the individual at the time. However, circumstances change. What was ideal for the individual at the time the structured settlement was created may no longer be beneficial today. Whether for medical expenses, a child's education or an heir's desire to settle an estate, more annuitants are choosing to sell their structured settlements for cash today to meet unanticipated needs.

There are many other reasons you may wish to sell your structured settlement, however, the selling of your payments should be carefully considered and we urge you to seek financial and legal advice.

What to do

Should you wish to proceed or to receive a quote please contact us. We guarantee you a fair price, with quick service and an easy process that puts you and your interests first. We can buy all payments, a number of payments or a portion of each of your structured settlement payment.
